### **COUNCILMEMBER FRYE TO RECOMMEND ADDITIONAL REQUIREMENTS FOR NEW DEVELOPMENTS**

*Goal is to ensure that basic city services, such as police and fire, are provided*

**WHO:** Councilmember Donna Frye

**WHEN:** Wednesday, January 19, 2005, at 2 p.m.

**WHERE:** City Hall, 202 C Street, 12<sup>th</sup> floor

**WHAT:** Councilmember Frye will recommend more stringent thresholds for determining when a development project will have a significant impact on the environment and, therefore, require mitigation. In the City of San Diego, which already faces more than \$530 million in unfunded needs for basic city services, every new development project creates impacts that can potentially increase these unfunded needs. In the most serious cases, new development projects may prevent fire and police from adequately responding to emergency needs. Councilmember Frye will be recommending updates to the thresholds to ensure that fire and police, as well as other basic services like parks, traffic and libraries, will be sufficiently supplied and managed.
